24-Apr-18

KMS Science Club 2017 - 18

Dear Club Members, Parents and Guardians,
We are going to Project Challenger in Tallahassee on **May 18, 2018** for a space program, learning lab, and planetarium experience. To arrive in Tallahassee on time we **MUST** pull out of the parking lot at **7:30 AM**. Because of our early start, you **MUST** be at KMS by **7:15 AM**. The timing will not allow us to wait for anyone who is late. We will return to school around 4PM, so someone will need to be at KMS at 4PM to pick up your child at that time.

We will have 2 adult teachers as chaprones and parents (no siblings) are welcome to meet us in Tallahassee if they want to attend with their child. Parents will be responsible for paying for their tickets and any expenses. Please sign the permission slip attached and return it by Friday, May 4th.

If you have ANY questions or concerns about the trip please feel free to call me or send a note or email. Contact information is listed below.

Fees for the IMAX 3D: Our Beautiful Planet, the Planetarium: Space, and the Learning Lab (where students will build their own small electromagnet) will be covered by the funds from our fundraiser at the beginning of the year. The funds **will also cover lunch with pizza and I will cover their drinks**. There is a gift shop which we will have a few minutes to look at before leaving if anyone wants to bring extra money to spend there. I will send home a list of items they carry so you can see prices.

Since this is the highlight of our year, I hope that everyone can participate in this awesome experience. Please contact me with any issues.
